“Covering Tulsa through the air”

PREZ SAYS:

I would like to thank every one that has helped out this year with the TRO events. We still have more this year and if you would like to help look on TRO' s Facebook or our website for details. We will be talking about Field day June 22, 23 at this months meeting. So if you have any ideals come to the meeting and lets talk about them. We are still in storm season so make sure you are weather prepared. Hope to see every one at the next meeting.

Paul Young - KE5EHM

MEETING PLACE FOR MAY 28th IS:

Shiloh's Family Restaurant
2604 North Aspen Avenue in Broken Arrow

SELF-STUDY COURSE OFFERING:

ARRL PUBLIC SERVICE AND EMERGENCY COMMUNICATIONS MANAGEMENT FOR RADIO AMATEURS

The ARRL Public Service and Emergency Communications Management for Radio Amateurs (EC-016) course is designed to train licensed Amateur Radio operators who will be in leadership and managerial roles organizing other volunteers to support public service activities and communications emergencies. In this course you will learn how radio amateurs prepare and organize to support local community events, and, working in coordination with governmental and other emergency response organizations, deploy their services to provide communications when needed in an emergency. The course is made available on-line on the ARRL website to all ARRL members. It is a self- study course that you may complete at your own pace. Studying the content of this course is expected to take a minimum of 30 hours. This does not include the time needed to complete the FEMA courses that are referenced as background knowledge for this course. Additional time will be needed to do the suggested activities that will reinforce the content and help you to understand how the topics apply. It is suggested that you develop a plan for completing this course over a period of 2-3 months, depending on your personal schedule.
